

Solid Waste Transfer Station Solutions

GT provides consulting services for transfer station owners & operators by...

- evaluating existing operations, programs, and services.
- recommending options and the most cost-effective solution.
- delivering best practices, strategic partnerships, and optimization of solid waste systems.

Our Experience & Services in operations, finance, design, and construction include:

- ▶ Cash Control Procedures & Financial Systems Reviews
- ▶ Solid Waste System Financial Planning
- ▶ Transfer Recycling & Disposal Procurement Services
- ▶ Community & Political Engagement Plans
- ▶ Community Programs & Services Development
- ▶ Operational System & Efficiency Reviews
- ▶ Facility Design & Construction Services
- ▶ Siting Studies
- ▶ Transfer Station Versus Long-Haul Transport Evaluations
- ▶ Fleet Management & Routing
- ▶ Feasibility Assessments & Master Plans
